

Gamblers' Worries

Gambling has been well-known for many centuries. At first, this exciting pastime was available for a small group of elite and rich people only. About one hundred years ago, people of all backgrounds got a chance to have a try at gambling. No matter how many active gamblers there may be, there are always onlookers and some have critical thinking paired up with negative attitudes. According to statistics, the city of Las Vegas was the most visited place in the world in 2014 and interviewees have expressed a great yearning to go to *Las Vegas Strip* in the nearest future. As you can see, while some are standing afar and keeping an eye on gambling activities, others don't waste time, but begin playing and winning. Can you imagine getting **6.37 million euros**? That has been the highest jackpot received by a lucky Mega Moolah slots player. Despite impressive jackpots, high payouts and countless bonuses, some gamblers still feel unsure of their playing success. But there are certain safeguards to guarantee worry-free betting experiences.

Where to Play Safe?

The most important factors of gambling safety is a casino and its software provider. Choosing a trusted house is no problem now. Just have a look at numerous ratings and payout data on <http://www.slotsnetwork.com/microgaming-casinos>. Still, you need to be realistic and double check doubtful info, as sometimes there are biased reviews, unfortunately. A good idea is to land at a certified casino. For example, watch out for **eCogra** approval sign meaning that RTP and RNG have been tested and found fair. This way, you'll have no issues when depositing or withdrawing money. The playing process is expected to be smooth and seamless, too. Remember that gambling is fun. So be knowledgeable, stay in control and safe betting is guaranteed.

What Game to Launch?

As eCogra checks RNG twice a year, you can keep in mind that games such as blackjack, roulette, poker, bingo and some others are tested. It also controls monthly payouts of four game categories (all, table, poker and **slots**). Make sure the game of your choice belongs to an eCogra tested category.

Advice of Likeminded Peoples

Gamblers recommend to pick games by respectable software developers. Definitely, leading companies such as *Microgaming, Playtech and*

NetEnt should be pointed out. But newbies in the online gambling niche also offer unusual playing solutions and some of them are worth trying. Due to casino stats, now slot games are released and played most often. Actually, they boast the most varied collection of games available. There is certainly a game to your liking in the extensive range at online and mobile casinos.

Reviews of Microgaming Slots

With over 800 games in general, a lion's share of Microgaming creations (over 200)

are slots. This company has launched world-known hits such as exciting **Tomb Raider**, cruel **Hitman**, powerful **Thunderstruck**, heroic **Avalon** and many more worthy slots. Its Mega Moolah with an immense progressive jackpot has set a world record. All in all, there are lots of themed slots of impeccable quality.

Forum Recommendations - Microgaming Casinos Credibility
